## **Remote Learning Basics**

**Asynchronous instruction is instruction that can be anywhere, anytime and is not “live”. It involves far more self-guided student instruction.**

- **Staff will check daily for student “engagement.” If students are engaged for the day, they would be marked as “Present-Remote Asynchronous”.**
- **Students who are not “engaged” that day are marked absent.**
- **“Engaged” means any of these three occur:**
  - **Progress in the Learning Management System (LMS) made that day. The LMS that the FSISD is using is Google Classroom. The LMS that Midland College uses is Canvas.**
  - **Progress from teacher/student interactions made that day**
  - **Turn-in of assignment(s) that day**
